ABOUT ME

Enthusiastic and detail-oriented 20 years Junior Developer waiting on HND results, with a strong foundation in frontend technologies (JavaScript, HTML, CSS) and growing backend capabilities in Node.js. Backed by solid programmatic logic from experience with C and C++. Eager to leverage practical academic training and a passion for clean code in a fast-paced development internship.

EDUCATION

- Year 2 Software Engineering
2025- 2026
SIANTOU University Institute
- GCE A-Level
2023- 2024
Saint Stephen's Int College

ACADEMIC PROJECT

A REAL-TIME MEAL ORDERING AND KITCHEN MANAGEMENT SYSTEM FOR RESTAURANTS

- Fully responsive web frontend with HTML5, CSS3 and JavaScript.
- Built backend logic and RESTful API endpoints using Node.js to handle data efficiently.
- Implemented Real-time communication between client and admin using Socket.io.
- Database managed by JSON Server.
